

YMCA END-OF-SEASON CHARACTER AWARDS

At the YMCA, we want each player to feel as though they belonged, achieved and built relationships throughout the season! At the end of each season, it is great to recognize each player as well as highlight team accomplishments.

In correlation with our focus on character development, we suggest making your end-of-season awards more focused on character than skill. Below are some suggestions for character awards you can give based on some of our YMCA core values and sports character traits.

Please remember that these are just suggestions and overall the main goal is to make sure every player on the team is recognized individually. Should you have other ideas, we welcome them as long as the spirit of your awards remain the same.
