LIVESTRONG® at the YMCA Referral Form

LIVESTRONG® at the YMCA is a 12-week physical activity and well-being program designed to help adult cancer survivors achieve their holistic health goals. The research-based program offers post-treatment (up to five years) patients a safe, supportive environment focused on strengthening the whole person. The course includes two classes per week, each lasting 90 minutes (including rest and reflection time, not consistent physical activity). At the start of the program, your patient will participate in a fitness assessment by YMCA staff including a six-minute walk test, one-repetition max test for upper and lower body, and a balance and flexibility test. By completing the form below, you are not assuming any responsibility for the Y's administration of the exercise program. If you know of any medical or other reasons why the applicant should not participate in LIVESTRONG® at the YMCA program, please indicate on this form.
