Winter Break Sports Camps

Safety Guidelines

- Check-in and check-out (rides in and out) will be conducted outside in a car-line style.
- All campers will have their temperature checked at check-in. Temperature must be below 100.4 to remain at camp.
- Any camper with a temperature above 100.4 will not be allowed to return for 72 hours symptom-free without medication. If a child or family member has any other signs of COVID-19 or has had close contact with a person suspected or confirmed case of COVID-19, the person must be excluded from camp for 14 days. Camper can be readmitted with a note signed by a physician or a negative COVID-19 test.
- Campers must wash/sanitize hands before and after each activity/snack.
- Camp groups will be limited to a 1:10 ratio.
- Campers will eat and complete activities with their camp group only.
- All campers' personal items must fit in a backpack that can be hung on a hook or chair.
- All campers must bring a refillable water bottle and a snack with them.
- Outside vendors will not provide activities for campers.
- There will be heightened cleaning throughout the day, including a disinfecting fogger for camp activity rooms.
- There will be a limited number of total campers due to spacing/occupancy guidelines.
- Campers are encouraged to bring their own equipment from home to help reduce the sharing of sports equipment. We will have extra equipment on hand to help those who do not own their own equipment.
- Games and/or scrimmages will occur less frequently to limit the amount of physical contact during camp. Skills and drills will focus more on an individual.
- Campers will refrain from shaking hands, giving high fives and fist bumps during camp.
- Counselors will wear masks indoors at all times and outdoors when social distancing is not possible.
